

The Grinch

Ready

- 4 12" or larger cones per 5 students
- 1 8 1/2" playground balls per student
- Music and player (optional)

Set

- Use cones to create medium grids (10x10 paces) for each group of 5-6.
- Create groups of 5-6.
- Distribute 1 ball ("present") to each student ("elf").
- Send 1 group to each grid

GO!

1. North Pole

- The area inside your cones is the "north pole." The North Pole is where all the presents are made by the elves for Christmas.
- On my signal, move around your section of the North Pole with your present by dribbling it with your feet. Keep your present within 1-3' feet of you.
- Avoid the other Elves, and watch where you're going.

2. The Grinch

- (Designate 1 student per grid as the Grinch)
- The Grinch's job is to "capture" your present.
- On my signal, move around with your present to avoid the Grinch.
- The Grinch's use their feet to try to tap your ball away, or if there is plenty of space, by reaching down and picking up the ball with their hands.
- If the Grinch captures your present you now become the new Grinch and try to capture a new present from a different elf in your group.
